Dear Sir,

Sub: Newspaper Advertisement- reg

Pursuant to Regulation 30 of SEBI (LODR) Regulations 2015, we enclose the copies of Newspaper Advertisement published in English and Tamil on 02nd August, 2025 in the "Trinity Mirror" and "Makkal Kural" respectively, with regard to Corrigendum to the Notice of 39th Annual General Meeting.

We request you to kindly take the above intimation on record.

Thanking you,

Yours truly

For Kovai Medical Center and Hospital Limited

R.Ponmanikandan
Company Secretary

Tech-Driven precision improves safety in scoliosis surgery

Madurai, Aug 2:

Scoliosis, a progressive spine condition often beginning in childhood or adolescence, can lead to serious complications if left untreated—including visible deformity, breathing issues, and chronic pain. Early signs like uneven shoulders or leaning posture are often missed, making timely screening essential.

While mild cases may be managed with braces, advanced deformities often need surgery—procedures that are complex and carry risks due to irregular spinal anatomy. However, advancements in technology are improving both precision and safety.

Modern tools like **intraoperative CT (ICT), real-time 3D navigation, and neuromonitoring** now help surgeons visualise the spine more clearly, ensure accurate implant placement, and

monitor nerve function throughout the procedure.

“In spine surgeries, precision is critical. These technologies help us reduce risks and make spinal correction safer for children,” said Dr. R. Sivakumar, Senior Orthopedic Consultant at Preethi Hospital, Madurai. Dr. Vinoth Thangamani, Senior Endoscopic Spine Surgeon, added, “Every spine is unique. ICT navigation eliminates guesswork and helps us plan with accuracy.”

He highlighted a recent case involving a 14-year-old girl with a severe spinal deformity due to congenital vertebral fusion. Using ICT and neuromonitoring, the surgery was completed safely, with full recovery and improved posture within weeks.

As awareness and access to modern treatment grow, early intervention

using advanced surgical tools can help young patients avoid long-term

complications and lead healthier, more confident lives.

iQOO announces exciting offers for Amazon festival sale

Chennai, Aug 2: iQOO, the performance-focused smartphone brand, has unveiled attractive offers on several of its best-selling models for the Amazon Great Freedom Festival Sale 2025, which goes live on August 2 at 12 noon on Amazon.in. Amazon Prime members will enjoy early access starting midnight on August 1.

The limited-time deals include iQOO Z10 Lite, Z10x, Z10, Neo 10R, Neo 10, and the iQOO 13, all known for their powerful performance and cutting-edge features.

A standout among them, the iQOO Z10 Lite, is equipped with the segment-leading 6000mAh

battery, offering uninterrupted entertainment and productivity. Powered by the MediaTek Dimensity 6300 5G processor, it comes with IP64 dust and water resistance, a 50MP Sony AI main camera with a 2MP bokeh lens, and a 6.74-inch HD+ LCD display with a 90Hz refresh rate and 1000 nits brightness, ensuring a smooth and vibrant visual experience.

These offers mark a perfect opportunity for smartphone users and tech enthusiasts to upgrade to powerful, feature-rich devices that deliver exceptional value across performance, photography, and gaming.

AWS introduces AI-driven development methodology at DevSphere 2025 in Bengaluru

Chennai, Aug 2: At its AWS DevSphere 2025 event in Bengaluru, Amazon Web Services (AWS) unveiled a new AI-powered approach to software development. Swami Sivasubramanian, Vice President of Agent AI, introduced the AI-Driven Development Lifecycle (AI-DLC) — a methodology that places artificial intelligence at the core of building complex software systems.

In addition to the AI-DLC, Sivasubramanian announced the launch of the AWS AI-Native Builders Community, a peer-to-peer network aimed at helping tech

leaders collaborate, share innovations, avoid common challenges, and fast-track their journey toward AI-native development.

Expanding on themes from last month's AWS Summit in New York, he emphasized how AWS is supporting developers in creating AI agents

that enhance productivity, accelerate development cycles, and improve user experiences.

AI-DLC Methodology: A new, openly accessible framework to integrate AI into every stage of the software development lifecycle. Available now

via AWS and as a custom workflow in Kiro.

Tool Ecosystem: The methodology leverages tools such as Kiro, Amazon Q Developer, and Strands Agents to streamline the development of large-scale systems.
